PROFESSIONAL SUMMARY

Back-end developer with 9+ years in IT background and 5 years in development. I am a programmer polyglot always eager to learn new technologies. Most recently I've been working with Ruby and JS and now curious about Go and DevOps/System Administration. Problem solver, result-oriented and self-starter. Comfortable working remotely with teammates. But I can also work independently on a given task or project. Proven multitasking ability.

SKILLS

Languages

☆☆☆☆☆ Ruby
☆☆☆☆ JavaScript
☆☆☆ GO, Bash, Python

Everyday use tools

Docker-compose	Ruby on Rails	MacOS
Docker	PostgreSQL	Linux
Gitlab	Redis	
Github	Sidekiq
